

NOTICE OF PESTICIDE APPLICATION

Date: May 31, 2024

Lead Agency and Permittee: Town of Cazenovia

Mailing Address: 7 Albany Street, Cazenovia, New York 13035

Facility: Cazenovia Lake

This notice is issued in accordance with and pursuant to Part 617 of the implementing regulations pertaining to Article 8 (State Environmental Quality Review Act - SEQRA) of the Environmental Conservation Law and the terms of a certain Permit issued by the New York State Department of Environmental Conservation.

Purpose of Action and Pesticide to Be Used:

Application (treatment) of the herbicide/pesticide, ProcellaCOR EC[®] to portions of Cazenovia Lake (comprising approximately 190 acres) for control of the invasive rooted aquatic plant Eurasian watermilfoil (*Myriophyllum spicatum*).

Description of Action and Area to Be Treated:

The action involves treatment of a portion of nearshore Cazenovia Lake through application of the herbicide florypyrauxifen-benzyl (trade name ProcellaCOR[®]) to portions of the Lake's nearshore area, focusing on areas with nuisance growth of Eurasian watermilfoil including public access and beach areas. The treatment is designed to address the continued presence of the invasive aquatic plant species Eurasian watermilfoil (*Myriophyllum spicatum*). This is the eighth phase of treatment.

Town of Cazenovia, New York (Cazenovia Lake -- 1,164 + surface acres,
(approximately 190 acres of treatment area)
(See map on file with the Town Clerk at 7 Albany Street, Cazenovia, New York)

Date of Application: June 12- 14, 2024

Method of Application:

Licensed applicators from Ready Scout, LLC will apply the herbicide using boats equipped with herbicide application systems employing a surface spray and/or subsurface injection of the herbicide.

Warning Information from Label:
