LETTER OF NOTIFICATION

Date: January 24, 2024

Re: Proposed Invasive Aquatic Plant Management Program – Cazenovia Lake

The Town of Cazenovia is applying to the New York State Department of Environmental Conservation (NYSDEC) to use an aquatic herbicide in the Spring or early summer to control the invasive plant Eurasian Watermilfoil in areas of Cazenovia Lake. The herbicide, ProcellaCOR EC, will control invasive Eurasian watermilfoil for multiple seasons in the treatment areas, but can have minimal impact on native plants. ProcellaCOR EC will be applied at less than 10 parts per billion (ppb), a rate which is significantly lower than most other aquatic herbicides. The Program will be conducted by a licensed applicator and Certified Lake Manager with the lake management firm Ready Scout, NYSDEC Pesticide Business Registration No.18575. An NYSDEC permit application is being submitted for approval for the treatment.

It is anticipated that the treatment will take place on one day **between May 20 and June 28**, pending permit approvals and the appropriate stage of target plant growth. Notification of the actual date of the treatment will be submitted to the Town and NYSDEC at least 7 days prior to application. The road access points along the lakeshore will be posted at the time of the treatment indicating applicable water use restrictions. Following application, **livestock watering and irrigation (except for turf) will be restricted until the concentration of the herbicide measures < 1 ppb**. There are no restrictions on swimming, fishing or drinking/domestic water use.

Water samples will be collected to determine the concentration of herbicide in the water and identify when the livestock watering and non-turf irrigation restrictions can be removed. This is anticipated to take 8-12 days.

The product label is available for review on the Town of Cazenovia's website at the following link:

<https://towncazenovia.digitaltowpath.org:10079/content/generic/view/159>

In the event that you as a riparian owner/user object to the proposed aquatic plant management program because you will be significantly affected by the water use restrictions, please contact the following agency within 21 days of receipt of this notice. Your objection must be in writing. Lack of comment will be considered consent to the treatment and water use restrictions.

Jerry Kimmel
NYSDEC Region 7, Bureau of Pesticides Management
1285 Fisher Avenue
Cortland, NY 13045

If you wish further information about the proposed management program, the exact date of treatment or need a printed or emailed copy of the product label, please contact the Town of Cazenovia at 315-655-9213 or Glenn Sullivan of Ready Scout at GPS@ready-scout.com or 908-310-8775 between 9:00 am and 4:00 pm, Mon - Fri.
