## Application For Construction or Modification of Residential Septic System

Date \_\_\_\_\_

Permit Approved By \_\_\_\_\_ Permit Number \_\_\_\_\_

Applicant's Name \_\_\_\_\_

Applicant's Address \_\_\_\_\_

Applicant's Phone Number \_\_\_\_\_

APPLICATION FOR: Construction of New System \_\_\_\_\_

Modification of Existing System \_\_\_\_\_

Property Owner \_\_\_\_\_

Property Location \_\_\_\_\_

Property Tax Map # \_\_\_\_\_

**Note:** In order to conform to the standards set by the New York State Department of Health (NYSDH), Parts 1, 2 & 3 of this application must be completed, and this information submitted to the Zoning Enforcement Officer prior to issuance of a permit allowing construction of a new on-site residential sewage disposal system within the Township of Cazenovia.

The information necessary for a Modification of Existing System - Permit shall be as directed by the Zoning Enforcement Officer.

**Notice:** The applicant shall notify the Codes Officer at least four (4) business days in advance of the expected time of completion of a waste disposal system, that the system is ready for final inspection.

**Part 1: Soil Investigation**

At least two test holes, widely spaced, shall be dug within the proposed leaching area to insure that uniform soil and site conditions prevail.

Each test hole shall be at least 5' deep and 2' square at the bottom.

Depth to bedrock, if any observed \_\_\_\_\_

Depth to seasonal high groundwater \_\_\_\_\_

Date performed \_\_\_\_\_ Observed by \_\_\_\_\_

For each test hole, soil profile observation information should include the following:

- Depth
- Texture
- Structure
- Color
- Soil Saturation

**Part 2: Soil Percolation Tests**

Note: These test shall be done in accordance with the procedures set forth in the *NYSDH Waste Treatment Handbook*.

There shall be a minimum 12-hour pre-soak period.

Copies of percolation test data forms should be attached to this application.

**Part 3: Proposed Site Layout and Design Basis**

Number of Bedrooms \_\_\_\_\_

Design Flow \_\_\_\_\_ gallons/day

Septic Tank Capacity \_\_\_\_\_ gallons

Percolation Rate \_\_\_\_\_ minutes/inch

Length of Absorption Field \_\_\_\_\_ feet

Method of Garbage Disposal \_\_\_\_\_

Part 3: Proposed Site Layout and Design Basis (continued)

Size of Lot \_\_\_\_\_ square feet

Separation Distance of System

From all wells,  
(including any on adjoining properties if within 200') \_\_\_\_\_ feet

From any streams, ponds, lake or watercourse \_\_\_\_\_ feet

Please include diagram of proposed sewage disposal system sited on the property with all pertinent information, including:

\_\_\_\_\_ Direction of surface drainage or contours.

\_\_\_\_\_ Location of test holes.

\_\_\_\_\_ Location of perc tests.

\_\_\_\_\_ Location of any wells within 200' of proposed system.

\_\_\_\_\_ Location of any existing streams, watercourses, etc.
